XII. NOTES

i. Comments	Wilhelm 1905: 252 supplies the reading τῶν περὶ Σ---, while he recognizes the other possibilities (a lunate letter that could have been an O or Θ). Baslez 2004: 106 n.6, building on Wilhelm's reading, suggests that the name of the group could include the name of a goddess and that the deity may have been the Syrian Goddess.

XIII. EVALUATION

i. Private association	Probable
Note	The descriptive term <i>orgeones</i> and the fact that a joint decision to inscribe the names of members is recorded on stone strongly suggest that this is a private association.
