Author: STELLA SKALTSA

# CAPInv. 443: synthiasitides

i.	Geographical area	Aegean Islands
ii.	Region	Delos
iii.	Site	Delos

i.	Full name (original language)	συνθιασίτιδες (ID 1403 B II II. 94-95)
ii	. Full name (transliterated)	synthiasitides

i. Date(s)	a. 166 BC

ii. Name elements	Cultic:	synthiasitides: fellow worshippers	

i.	Source(s)	ID 1403 (before 166 BC)	
	Note	RICIS no. 202/0421	
	Online Resources	<u>ID 1403</u>	
i.a.	Source type(s)	Epigraphic source(s)	
i.b.	Document(s) typology & language/script	Inventory of the Sarapieion in Greek.	
i.c.	Physical format(s)	18 fragments of a marble opisthographic stele.	

### VI BUILT AND VISUAL SPACE

## ii. References to buildings/objects

See below

### VII ORGANIZATION

iii. Members

synthiasitides (ID 1403 Bb II 1. 95)

### IX. MEMBERSHIP

ii. Gender

Women

#### X. ACTIVITIES

iv. Honours/Other activities

The synthiasitides dedicated together with Charigno a phiale  $\lambda$ εία[ν  $\dot{\omega}$ ]ς ποδιαίαν (smooth about a foot long), worthy of 92+ dr. This dedication was originally stored in Sarapieion C but later moved to the temple of Artemis.

### XII. NOTES

i. Comments

It is not clear from the phrase *Charigno kai synthiasitides* whether Charigno was a *synthiasitida* or a priestess though it seems that she was leading the group. Her name was recorded together with the *synthiasitides*. Charigno may be identified with Charigno of ID 1412a.1 l. 69 and ID 1417 A Col. II, l. 122. In this inventory she appears as the dedicator of a *phiale*  $\lambda$ είαν ὡς  $\pi$ οδιαίαν, the exact same offering she made together with the *synthiasitides* in ID 1403 II l. 95. However, in ID 1417 the name of the *synthiasitides* is not recorded; inconsistencies between the inventories are occasionally attested. Charigno also dedicated a frankincense-burner without a lid in IG XI.4 1307 II. 14-5.

### XIII EVALUATION

i. Private association

Possible

Note

The name *synthiasitides* is not conclusive evidence for the precise nature of the group if a group at all.
