IV. NAME AND TERMINOLOGY

ii. Name elements	Kinship-related:	The term <i>Andragathidai</i> was interpreted as a gentilician referring to a social group, a phratry or a <i>genos</i> (Helly 1995: 320; Decourt and Tziafalias 2001: 14; Darnezin and Tziafalias 2007: 28; Tziafalias and Helly 2013: 208, n. 162; Helly forthcoming; Mili 2015: 349).
	Topographical:	The phrase <i>hoi en Kylliadais</i> gives a toponymic precision for the group (<i>Andragathidai</i>). It has been argued that this was the site where they resided (Decourt and Tziafalias 2001: 147; Darnezin and Tziafalias 2007: 28). It has been also argued that this is a category of toponyms that derive from gentilicians that are related to heritage areas; it means 'the land of the <i>Kylliai</i> ', while <i>Kyllos</i> is a common personal name in Thessaly (Helly 1995: 320; Tziafalias and Helly 2013: 208, n. 162; Helly forthcoming)

VI. BUILT AND VISUAL SPACE

i. Archaeological remains	The site of the ancient city of Larisa has a significant record of finds (public architecture, sculpture, inscriptions, coins and small finds) dating to the classical period (Decourt, Nielsen, Helly et al. 2004: 695-7). The inscription was found probably in second - bearing manumission records - or third use at 8 Roosevelt Street, along with various inscriptions (Tziafalias 1979: 217, no. 3).

XIII. EVALUATION

i. Private association

Possible

Note

Although this seems to be a civic group, the possible connexion of the topographic element in the name with a private group originating from the same inhabited area allows the question to remain open.
