		Two well-established ways of naming a group seem to have been combined here which from a grammatical point of view are mutually exclusive: <i>hoi peri</i> + personal name and the corporate term <i>phratra</i> in the singular. Other earlier, examples from Phrygia have the correct form <i>he peri phratra</i> (cf. CAPInv. 451.

	Note	This is a rather late example of the <i>phratra</i> -type of association known from Phrygia. Perhaps the grammatical inconsistency (<i>hoi peri phratra</i> instead of <i>he peri phratra</i>) could be used as an argument for the personal, private nature of this association.
ii.	Historical authenticity	Certain
