XI. INTERACTION

i. Local interaction	There is no indication of interaction necessarily, but like P.Oxy. XLIV 3192 (307 CE; CAPInv. 1933), the proceedings indicate two groups (weavers and builders) attempting some control over membership. The weaver Paul, it seems with support of the other weavers, has acted on behalf of another weaver to prevent the builders from co-opting him into their number.

XII. NOTES

iii. Bibliography	Youtie, H. C. (1958), "Notes on Papyri and Ostraca," *TAPA* 89: 374-407. Thomas, J. D. (1998), "P. Ryl. IV 654: the Latin Heading," *CE* 73: 125-134.

XIII. EVALUATION

i. Private association	Possible
Note	There is no mention of a *synodos* or *koinon* here. That does not necessarily mean that we are not dealing with an association of builders or weavers.
