XIII. EVALUATION

i. Private association	Discarded
Note	The restoration <i>synodos</i> , proposed by A. Wilhelm, is not very convincing, since fourth century BC is too early for a group to be called <i>synodos</i> . As it was envisaged in IG it may be a decree of a deme (where the expression <i>aneipein ton keruka</i> occurs), also Lasagni (2004); however, Whitehead 1986: 392, no. 140 is rightfully sceptical about the restorations and the ascription to a deme.
