i.a. Source type(s) Papyrological source(s)

i.b. Document(s) typology & language/script Fragmentary Greek papyrus of uncertain content, with mention of a *synthiasites*.

i.c. Physical format(s) Papyrus.

## VII. ORGANIZATION

iii. Members The text is fragmentary but in two lines there is mention of συνθιασίτης, *synthiasites* (ll. 3 and 5, in the genitive and accusative respectively).

## IX. MEMBERSHIP

ii. Gender Men

**Note**

The term *synthiasites* is in the masculine.

## XII. NOTES

**i. Comments**

The state of the text is too fragmentary to allow any certain interpretation on the nature of the document.

## XIII. EVALUATION

**i. Private association**

Certain

**Note**

Despite the fragmentary state of the text, the presence of the term *synthiasites* makes it certain that the man was member of a private association. Nothing else can be said about the association itself or its members.
